What do the letters after a Social Security or Medicare number mean?

The Social Security number followed by one of these codes is often referred to as a claim number. We assign these codes once you apply for benefits. These letter codes may appear on correspondence you receive from Social Security or on your Medicare card. They will never appear on a Social Security card.

For example, if the wage earner applying for benefits and your number is 123-45-6789, then your claim number is 123-45-6789**A**. This number will also be used as your Medicare claim number, once you are eligible for Medicare.
